JANUARY 2009

www.Stainless-Railing.com

2031 Carolina Place Drive | Fort Mill, SC 29708 -- P: 704.365.5152 | F: 704.373.2995

This project held a diverse mix of tasks for ARG, Inc. We provided stainless railings for the entire project, in both interior and exterior applications, as well as architectural features for the parking garage.

Inside the main stair tower, is found a beautiful stainless handrail with our optional, blue glass infill panel. This railing application creates a dramatic effect, whether viewing from outside, or inside the stairwell -- a truly remarkable sight!

Location: Mooresville, North Carolina

Type: Corporate Office / Parking Building

Architect: LS3P Associates, Ltd.

GC: Rodgers-Dooley
