**January 2010**

# **Knight Theater**

Charlotte, NC

## **What We Provided...**

- **Stainless Steel Top Rail**
- **Structural Glass Infill Panels**
- **Stainless Steel Cladding**

Completed in November, 2009, Knight Theater is the most recent offering from an ever-evolving cultural district, located in Uptown Charlotte, North Carolina. This project called for an expansive sequence of radius, glass guardrail on the second-floor balcony, overlooking the grand entrance of the theater. The structural glass railing conveys a sleek appearance, with an unobstructed view between floors. Architectural Railings & Grilles, Inc. also provided grand staircase railings for this project. Please visit our web site for more information about our structural glass railing designs.
